HALLOWELL HOUSE,

HALLOWELL, MAINE.

The subscriber respectfully announces to his friends and the public that he has leased this well known Hotel and has made many important improvements and repairs. The house has been newly furnished throughout in a manner that will compare with any other establishment on the Kennebec. It is his determination to make it one of the best resorts for the travelling public that can be found in this section of the country.

Gentlemen with their families and members of the State Legislature will be furnished with superior accommodations. The proprietor hopes by personal politeness and attention to merit the support and confidence of the public. Connected with the House is a good Stable where careful and experienced Ostlers will always be in attendance.

SECOND SEASON OF

MR. SNELLER'S DANCING ACADEMY.

THE public are respectfully informed that the above Academy will be re opened on about the middle of June. Classes of both Adults and Juveniles will be formed, and no efforts will be spared to perfect all in the most delightful accomplishment. The latest and most fashionable dances will be taught, and in addition to our last season's list, new Quadrilles and Fancy Dances will be introduced. Our system of teaching is the same adopted in the best Academies both in Europe and America and we beg leave to refer all interested to our pupils *particularly* the Juvenile classes as proof of our entire ability to do all, and even more, than we have professed. Our resources are second to none and our intention is to establish a permanent Academy where all may be taught in the most thorough manner.

Subscription Papers for the Juvenile classes may be found at our Hall No. 1 Main Street every day during the week. WARNOLD KNIGHT, H. R. SNELLER.

N. B. Pupils of the age of seven years or over will be received. tf a24

NEW WATER CURE ESTABLISHMENT AT

GORHAM, MAINE.

THE subscriber has taken that beautiful and desirable situation in Gorham Middle known as the CLOUDBURY ESTATE which he has fitted up for a

Water Cure Establishment,

And which will be open for the reception of patients on the first day of May instant.

The House is large elegant and commodious,—the rooms spacious and airy and the whole furnished in such a manner as to gratify the taste while it secures the comfort and promotes the health of the inmates.

The location of this establishment is such that it leaves nothing that respect to be desired. It is one of the most delightful residences in New England and combines the advantages of the rural pleasures and quiet of the country with near proximity to the city. It is one mile from Gorham village and only eight miles from the city of Portland hence it is easily accessible from all parts of the country.

The water is pure and abundant—the most convenient arrangements for its application will be adopted and no pains will be spared to render the treatment efficient.

The Proprietor being a regularly educated physician and having had much experience in other modes of practice, as well as in Hydropathy and having moreover visited the most celebrated Hydropathic Institutions in England France, Germany and Belgium for the purpose of obtaining a thorough knowledge of the system confidently hopes to give satisfaction to all who may place themselves under his care.

Genteel Horses and Carriages, good saddle horses and various sources of innocent and healthful amusement, will be provided.

THURSDAY, MAY 31, 1849

☞ The Augusta Age is grandiloquent on the subject of the United States Senate undertaking the job of a general rejection of the appointments made by Gen Taylor The practical Democracy of the loco party seems to be to defeat the will of the people whenever that will runs counter to the interests and wishes of the leaders and office holders of that party The people have in the exercise of their political right elevated the Whig standard and signified their wish that Whig men should rule and whig measures prevail

It happens just now that the conservative branch, that which is slowest to change but which ought on that very account to exercise its rights cautiously when opposed to the expressed voice of the people—we mean the Senate of the U States—has an opposition majority and the counsel of the loco leaders and the loco press is to prevent the People's new administration from carrying out its measures by denying to effectually and really, the appointment of its subordinate officers The Senate never will undertake that responsibility In cases of unfitting and unworthy appointments if any such there are the Senate should rightfully reject, but it will not reject a good appointment merely because the man removed was not proved as bad as Satan

This seems to us so certain that we are inclined to look upon this outcry and these threats of the loco press as so much manufactured blarney sent into the market in the hope of frightening Gen Taylor and thus saving in office, which is the only loco heaven, some of their partizans

☞ The Citizen's Band are to favor our people with a concert on this evening at Market Hall There are more reasons than one why this concert should be fully attended by our citizens The rich music of the band ought to be sufficient anywhere to give them a good house But even if the people here were surfeited with music, which they are not nor likely to be, they should attend this concert for the purpose of giving encouragement to the members of the band who devote so much attention to the study and practice of music There are many public occasions when the services of a good band are required, and while there is not sufficient employment for a Band to acquire enough to pay their current expenses If then, the people of Bangor would have a band here, well appointed skillful and attractive, they must sustain their concerts In this case all may be assured that the home production is equal, if not superior to any of the imported—Dont fail to enjoy the treat on this evening

☞ The good people of Belfast and Thomaston are soon to be visited by Mr Howard the well known and highly accomplished performer on the violin Mr Howard will give entertaining concerts in each of these towns and his high reputation will we doubt not, secure full houses

Mr Howard was a pupil under Ole Bull while he was in this country, and in many of the performances he is now fully equal to his great master He ought to be since, he is a close student and devotes a large portion of his time to hard study and close practice He means to excel, and for this purpose he willingly tasks all his powers and appropriates all his time We speak for him a favorable reception Mr H has been solicited to return to this city and give another concert before leaving for the great West

☞ Our lady readers will be glad to learn, undoubtedly, that Messrs Fenno & Hale have just introduced to the good people here a new stamp needle, so perfect that they will almost go alone, after they are threaded, or at any rate will go with only a slight exertion on the part of the fair handed

The needle was among the earliest implements manufactured and has been improved and perfected until it now stands unrivalled for its completeness of finish and the wonderful facility with which it is made, and also for its surpassing cheapness, and the universality of its use

The new needle is known as the 'Week's Needle' it being manufactured by J H Weeks & Co Boston and it is sufficient to say of it that it is equal, if not superior to the well known needle manufactured by J Warren Messrs Fenno & Hale have both sorts

It is not generally known that within the last year or two steps have been taken at the South with a view to supply the home market with domestic flour. Several large flouring establishments have been put in operation in the States of Georgia and Alabama, by which good merchantable flour is produced from Southern grain.

☞ The authorities of Charleston, S C, are trying to obtain sufficient supplies of water for the drinking purposes of that city, by means of Artesian wells. The work has been begun in an locality, to the depth of 770 feet without reaching water

California Items

Mr C Whitehead of New York whose statements may be relied upon, states in a letter from the city of Mexico April 15 that he met there three men on their way home from California with three hundred thousand dollars worth of gold with them, which they have made in one year, and which they showed Mr Whitehead and his party The news they bring is better than ever

Letters from San Francisco dated March 8th, state that many of the volunteers who went out in Stevenson's regiment, have done remarkably well at the gold washing Some of them were making arrangements to come home by the first opportunity

The people of Oregon are reaping a rich harvest from the lumber trade they are carrying on with San Francisco

The Little Rock (Ark) Banner, of the 8th inst, says that nearly all the emigrants who intend to take the Arkansas route for California who started from Fort Smith some two months ago and so far as heard from encountered no difficult whatever

In March last the Kickapoos and Shawnees had purchased a considerable quantity of ammunition at Fort Smith and Van Buren The Shawnees have recently brought into Fort Smith several large droves of mules and ponies

The New York companies reached little Rock Ark, on the 5th inst, the Waterford Mutual Mining Association and the Brooklyn Mining Company

JEFFERSONIANVILLE (Ia) May 24

A party of Californians, or rather emigrants for California, recently arrived here on their way out They were 28 in number when they first set out, and had lost 20 by cholera

The Boston Traveller says that within a week a very large number of private letters have been received from California The tenor of these accounts, sustaining as they do, former statements as to the richness of the gold region has set in, to a partial extent, reproduced the gold fever Already at new companies forming for emigration Among others several sea captains have combined and are about to start in a fine brig

Lumber and building materials of all kinds are in great demand in California, and brings very high prices Boshes are worth almost their weight in gold

Homeopathy in the Cholera

To the Editor of the Whig and Courier —

I noticed a few days since a paragraph in your paper, stating that seven physicians of Milwaukie had publicly recommended the *Homeopathic treatment in Cholera*, which reminded me that I had a letter from a very reliable source written at New Orleans in January last, when the cholera first made its appearance in this country since 1832, and produced so much terror

The writer is well known here as being distinguished for his general intelligence and integrity of character and needs no vouchers on my part as to his veracity As there is, to say the least, some liability to the prevalence of that dreadful disease here, as elsewhere, and as the matter of Homeopathy is securing considerable attention by many intelligent and respectable citizens of this place, I do not deem it a breach of confidence to ask you to publish some extracts from the letter I know that if it may be the means of accomplishing any good, my friend will be glad, and so will you and others Mr Nourse has long been and is still engaged extensively in mercantile pursuits at the South and is there held in the highest esteem as a gentleman and an honest man He was formerly from Penobscot, and is remembered by his old friends with great respect Yours for the good of the public A CITIZEN

P S I have another letter received from Mr N of the 11th of April after the epidemic had subsided and reappeared, confirming in every particular the success of the medicines given in the letter

NEW ORLEANS, January 10, 1849

MY DEAR SIR —After congratulating you, &c I shall say a few words upon the subject of the epidemic which has spread such dread around us for the past month I know the interest you feel in *Homeopathy*—and let me assure you that myself and others have tested it fully in this disease as well as in the yellow fever and epidemic dysenteries, and in not a single case in either, has it failed

Early in October I had the yellow fever severely I neglected myself one day too long—Dr Leon attended me He felt anxious—but it yielded

Dr L and myself have treated a vast number of cases in the first and second stages of Cholera Several other physicians of the new school are also here and in full practice The whole number now in the United States is 3000 A majority of these were graduates of the old school and among its brightest ornaments It is now quite too late to laugh at the great Hahnemann's discoveries

As the Cholera may, and no doubt will visit the East, I will mention to you that treatment which I regard as the best, and hope you may do good to others.

First of all, the diet is most essential when it appears Roast Beef, mutton and beef steaks, good bread, well baked the day previous, good mealy potatoes, boiled or roasted No other vegetables and no fruits or pastries Then attend to the very first attack—which is always a diarrhea or some derangement of the stomach and bowels Chamomilla and Pulsatilla or China will in most cases be quite sufficient, if not a dose of Phosphoric acid I have not found a single case in the first stages that has not yielded to it Generally I have found China excellent where there is diarrhea attended with much pain. I have seen the good results in ten minutes If there is nausea, always give Ipecac — In the second stage, I have always found cramp yield to camphor, two to four drops once in five minutes in a teaspoonful of water If there is much coldness, approaching the collapse state, follow it with veratrum, and that by cupram — My youngest child as well as my partner, Mr Harris, came near dying both, by imprudence in diet. They each had the cramp badly twice I then became as absolute in the Simpsonian Nicholas in diet, with all my friends, *eats they all food.* As you are aware, I am only a graduate practitioner I am advised by my friends to turn my whole attention to the practice I reply, that if sick, I would do so *gratuitously* in a dispensary in New Orleans, but now I must continue my business, (Mr Nourse is engaged extensively in a general commission business) I had enough to do through the whole of the epidemic besides my attention to the sick. Such times require some moral courage Thousands fled before it through mistaken policy The same cordial and philanthropic, etc to be relied on in the hour of danger, Providence. Very truly yours, IRAM NOURSE

Mr Daniel Ayer, of Roxbury will pay upwards of $6000 of debt from which he was discharged upon his failure some years ago, on Monday evening next, and give his former creditors an elegant supper, at his house, into the bargain, at the same time This sum will cover principal and interest in full

☞ Those who have not yet cleansed their cellars and premises generally, and made all clean and sweet, must be in a hurry as the committee are about, and the fine for having unhealthy filth about is one hundred dollars The weather is getting hot and will soon brood everything, and the only sure way is to get ready

☞ The N Y Commercial states that Capt Tibbits who was deposed from the command of his ship by the American consul at Rio Janeiro some difficulty having occurred between him and his passengers, went out in the Falcon, with papers from the Department, reinstating him in the full control of his vessel

Persons have arrived at St Louis from the Plains, who state that the cholera had broken out among the mounted riflemen and emigrants

A company of New Yorkers, numbering about thirty, had left twenty five behind them Their teams had gived out, and their wagons were broken

☞ The Stark Guards of Manchester, have volunteered their services to perform escort duty in case President Taylor visits that city

Organized emigration, on a large scale, is begun in Ireland The parish priests intend to accompany their congregations

☞ Thanks to Hodgman and Co s Express for a fine lot of papers by the Penobscot on yesterday

☞ Thanks to Capt Cates, of Bryant & Co s Express for papers received on yesterday in advance of the Mail

The Voice of the Poor.

I

Was sorrow ever like to our sorrow?
Oh! God above!
Will our night never change into a morrow
Of joy and love?
A deadly gloom is on us waking, sleeping,
Like the darkness at noontide
That fell upon the pallid mother, weeping
By the Crucified

II

Before us die our brothers of starvation,
Around us cries of famine and despair
Where is hope for us, or comfort, or salvation—
Where—oh! where?
If the angels ever hearken, downward bending,
They are weeping, we are sure,
At the litanies of human groans ascending
From the crushed hearts of the poor

III

When the human rests in love upon the human
All grief is light
But who bends one kind glance to illumine
Our life long night?
The air around is ringing with their laughter—
God has only made the rich to smile,
But we—in our rage, and want, and woe—we
follow after
Weeping the while

IV

And the laughter seems but uttered to deride us
When, oh! when
Will fall the frozen barriers that divide us
From other men?
Will ignorance for ever thus enslave us,
Will misery for ever lay us low?
All are eager with their insults, but to save us
None, none, we know

V

We never knew a childhood's mirth and gladness
Nor the proud heart of youth fire and brave,
Oh, a death like dream of wretchedness and sadness,
Is life a weary journey to the grave
Day by day we lower sink and lower
Till the Godlike soul within
Falls crushed beneath the fearful demon power
Of poverty and sin,

VI

So we toil on, on with fever burning
In heart and brain,
So we toil on, on through bitter scorning,
Want, woe and pain
We dare not raise our eyes to the blue Heaven
Or the toil must cease—
We dare not breathe the fresh air God has given
One hour in peace

VII

We must toil though the light of life is burning,
Oh, how dim!
We must toil on our sick bed feebly turning
Our eyes to Him,
Who alone can hear the pale lip faintly saying,
With scarce moved breath,
While the pulse bounds spirited and the prayer is staying,
'Lord, grant us Death!'

The New York Express of last evening has a letter from Independence, Mo, dated the 13th which says

The cholera here is sweeping everything before it Lieut Schenck, U S N on his way to San Francisco, from St Louis, to join the Navy, took sick at 10 o clock last evening, of cholera and was a corpse at 7 the next morning He has left a wife and child at the latter city to lament his loss

Gloom reigns on every side Business is at a complete stand All the Californians have pretty much left so all right The cholera rages so extensively among some of the emigrating parties that they do not even stop to bury their dead Corpses are found wrapped in their winding sheets lying along the road in heaps of five and six together The scene on every side is painful and horrible in the extreme

Wistar's Balsam of Wild Cherry at Home

We have not so frequently called attention to this article in the columns of our paper and we have done so with the full confidence that it was a good one and deserving the patronage of the public We have had a chance to witness its effects upon some of our friends which, in addition to the high encomiums passed upon it by our brethren of the press, not in paid puffs but in *honest, candid sentiments from having derived a benefit themselves* makes us desirous of advising all those who have occasion to resort to a *reliable* remedy for pulmonary affection, to avail *themselves of it* We have too much confidence in Mr Fowle the general agent to believe he would thrust this or any *other medicine* upon the community unless he had *full faith* in its efficacy—in confirmation of which the *proprietor offers a mass of testimony from the most unquestionable sources* Neither would we be understood as saying that this will *always cure consumption after it is seated* although it *seldom fails to relieve the worst cases*—but at this season of the year almost every body is liable to a cold which if neglected will lead to fatal results—by taking *this medicine* we doubt not many lives may be saved

THE greatest invention of the age—the most practical and scientific product on ever made in the Stove line 3000 of these Stoves were sold in New England, during 1848—More than 30,000 are now ordered of the Manufactorsies in New England alone This Stove has received the highest premium from every Fair that it has been exhibited before

Hot Blast Air-Tight COOKING STOVE

[We would call the attention of the reader to the Report of the Worcester County Mechanics Association, held in the city of Worcester Sept 1848]

112 *Hot Blast Air Tight Cooking Stove* contributed by Gordon Williston Worcester This stove involves an entire new principle in applying the heat to the baking or broiling of meats The fine flavor of meat cooked directly upon the coals is the result of the action of the carbonic acid on coals or over coals in our best Stoves, where this flavor is acquired is both difficult and disagreeable operation But in this stove a steak was broiled in three minutes without any smoke or odor escaping into the room It was evenly and well cooked, and had all the pleasant twang of a coal broil A large oven immediately over the ordinary oven, is so constructed that the whole body of heat can be made to pass through it, forming for the time being a flue for the draft. This arrangement secures all the qualities of a good broil or bake in meats without the labor usually attendant on such affairs It likewise has good radiating qualities, with large oven and convenient arrangements for cooking furniture —[Silver Medal

N. H. DOWN'S

Vegetable Balsamic Elixir,

The Great Northern Remedy for Consumption!

ALSO, the most effectual remedy in the world for *Colds Coughs Whooping Cough Croup or Quincy, Asthma, Pain in the Side or Stomach*, and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked, and differs from that of most medicines recommended for the same complaints in the following particulars

1st—It never irritates the organs it should soothe—never dries up the cough leaving the cause untouched—but first *loosens the cough increases the expectoration or spitting* then removes the cause *eradicating it completely* from the system when as a matter of course, the *cough ceases* and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it and produce a healthy action of the bowels.

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration* thus expelling by the pores of the skin those nauseous fluids and impurities of the blood the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWN'S ELIXIR is a specific for all the ills that flesh is heir to but we do say and can confirm by incontestable evidence that for

CONSUMPTION,

And all all diseases of the *lungs the liver and the pulmonary organs* it is *unrivalled—unequalled*—HUNDREDS by have been snatched from an untimely GRAVE and hundreds who *delay to long its use*, have found in the advanced state of their disease that RELIEF FROM SUFFERING which they had vainly sought from every other source

This INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and 4½ oz bottles at 50 cents and one dollar per bottle and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak adulterated* patent bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures, from every part of the country many of which have been published and may be *had gratis of any of our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents St ALBANS VT to whom all orders for supplies of the medicine should be addressed (stating the best mode of sending it)—also sold by agents in nearly all the villages and towns in the country

It is also sold at wholesale and retail by David Bugbee G W Ladd Curtis & Perkins A P Gould, Wm Mann G McFarland Bangor L S Smith J W Curtis & Co Hampden Chas Johnson J B Chick, Frankfort, H P Fifield Bucksport J Hooper Jr S P Hatch A G Caine B Nourse Geo Parcher Ellsworth, E P Butler & Co Orono, J & R Fisk, H & J Y Richardson Oldtown, Wm O Poor Belfast Chas A Macomber R F Stocomb East Thomaston

LATEST AND BEST
....IMPROVED....
Patent Bedstead.
THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor
This improvement is simple in its construction and consists in furnishing a substantial Bottom to Bedsteads, which shall be elastic and have all the advantages of a Slat, or Sacking Bedstead, while at the same time, it serves to secure the posts and rails compactly together, without other aid It can be fitted to any Bedstead, *old* or *new*, with much less time and labor than is required to put in a cord, and when fitted, gives *great strength* and support, and keeps the Bedstead in proper shape It cannot be doubted that this simple improvement, will when known take the place of every other method now in use We can confidently recommend the above improvement to our customers and to the public, as the cheapest, most substantial and best Patent Bedstead ever invented.
The Public are respectfully invited to call and see a specimen at SAW & MERRILL,

McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores Rheumatism Swelling of the Feet and Legs by Swelling of the Joints or Sore Throat Chronic Eruptions of the Skin, and all Scrofulous Diseases Rigid Cords occasioned by Cold or Strains Stiff Neck Chilblains or Chapped hands, Sore or Inflamed Breast, Weakness or Pain in the Stomach Piles, Corns Warts, and Common Sores and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of All-Healing Ointments and Panaceas" that are now advertised as the *most effectual* and *certain cures* for all diseases and calamities to which man or animals are subject

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no inconsiderable trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all healing properties

To say indeed that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that if, forsooth, we are richly paid and the article soon, very soon has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated we do not and shall not call to our aid the empty *puffing of the Press* or the bought certificates of individuals and shall make use of them only so far as they have been or hereafter may be entirely *voluntary* and *unsolicited*

The Salve is now before the Public!

They, and they alone will decide upon its real virtues and medicinal properties To say less were injustice to ourselves—to say more would be superfluous

Here are some of the many Certificates:—

The subscriber was afflicted with a Fever Sore upon his leg for about six years and in the winter of 1845 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenney and continued its application until I had used six bottles, which entirely cured me and I have had no return of the disease since I would say to all I know of the above Salve, to be a sure cure for CURES one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter (Maine) May 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year and having tried various means to effect a cure without success which cost me about forty dollars I bought three of JONATHAN McKENNEY'S SALVE which effected an entire cure in less than two months SIMEON MANSON

BANGOR June 5 1846

Mr M Kenney:—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter logging operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and bruises, and I found indeed to my great satisfaction that it was a valuable article I also made application of it in cases of Cuts Sprains and Bruises, on my men and found it equally beneficial It can truly be called the All Healing Salve

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY FOR COLDS COUGHS ASTHMA and CONSUMPTION

BUCHAN'S HUNGARIAN BALSAM the Great English Remedy for Pectoral and Pulmonary diseases is now offered and universally acknowledged the most efficacious, agreeable, and effectual curative of these fearful diseases ever published, now known to the civilized world

During years time of trial in the United States, during which time it has been distributed from Maine to Florida, it has uniformly established the pre-eminent merit of its claims of the country as the great and only RELIABLE REMEDY for the cure of Pulmonary diseases. It has stood and most agreeable that it is not to be the only, and indeed the most certain and safe remedy for Consumption

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY

FOR BRADLEE—Dear Sir The Hungarian Balsam is, I believe, a most valuable and admirable preparation for diseases of the Lungs. I have used it in my family and in my professional practice for more than two years with the most unqualified and entire success in cases of *severe Pulmonary disease* and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such disease with which I am acquainted Yours respectfully,

FREDERIC T STORER, M D

Saco Me, May 22, 1848

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

From the Christian Freeman,

While we are disposed to be very sparing in our praise, we are always pleased to give credit to any thing which we find really useful, and to give our influence which may be the means of saving a brother of ours, from Norway Me, to come into our office in comfortable health whom we did not expect to see again on earth We received a letter a few weeks since, from another brother resident in the house with him saying that he was confined to his bed and could not probably continue but a short time Judge then of our surprise when we saw him enter our office He has a slight cough remaining but it will be no wonder that he should have, until he has had further time for acquiring strength of lungs But he is in comfortable health The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully will show what medicine has been the instrument of the good work

Boston Feb 16 1847

Dr D F Bradlee—Sir—I cannot refrain from saying a word to you in commendation of "Buchan's Hungarian Balsam of Life" There is plain statement of facts in relation to our case and if here are any to whom such information may be useful from whence I obtained it, I shall be thankful

My residence is Norway Me Three years ago last fall I took a violent cold which left a cough of the most aggravated and accompanying a severe pain in the left side Last June I had become so feeble to the house until a out four weeks since During that time I received the best medical attendance and tried nearly all the medicines which are recommended in such cases but could find no relief, but grew worse, and for the last three weeks was confined to my bed Two of my physicians gave me up as past recovery But as fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle This gave me instant relief and six bottles have broken up my cough, and placed me in a situation to resume, with advancing health, my usual occupation

BE WISE TO-DAY

Delay in any case of Consumptive tendency, is emphatically Death, under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well a CURATIVE. If you have any symptoms above described, be advised in time

dec 30 GEO R SMITH & CO

CAUTION EXTRA.

A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend, and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla, denominating it *GENUINE* Original etc This Townsend is no doctor, and never was, but was formerly a worker on railroads canals, and the like Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not This is to caution the public not to be deceived, and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla, having on it the Old Dr's. likeness his family coat of arms, and his signature across the coat of arms

Principal Office, 102 Nassau st New York City

DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *ORIGINAL ORIGINAL JOHN TOWNSEND SARSAPARILLA*. Being poor he was compelled to sell the manufacture by which means it has been kept up to this date and the native circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless as the cripples who had been healed of the diseases and raised from death proclaimed its excellence and wonderful

HEALING POWER

Knowing this secret agent that he had by his skill science and experience distilled an article which would be of incalculable benefit to mankind and when the means would be furnished to bring it into universal notice when his certain cures would be known and appreciated This time has come the means are supplied and

GRAND AND UNQUALIFIED PREPARATION

is now manufactured and offered to the public at the lowest possible price and is called for throughout the length and breadth of the land especially in those localities where disease or debilitation prevails

Unlike young S P Townsend's it improves with age and never changes Unfortunately for the latter he was prepared on a *certain occasion* to *change his name*. The highest chemical knowledge of Chemistry and the late discoveries of the art have been brought in requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root, it is well known to contain Iodine Iron and many other properties and some properties will change in preparation, for instance if it be *fermented* and will be injurious to the system One of the properties of Sarsaparilla are so *volatile* that they cannot be retained and are lost in the preparation if they are not preserved by a *new and peculiar process* known only to those experienced in its manufacture Moreover those *volatile principles* which fly off in preparation exhibit and contain the very *essential medical properties* of the root which give it its value

Any person can boil down the root and have a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then vanish, this liquid or extract liquid even with sour milk and then call it SARSAPARILLA EXTRACT or SYRUP But such is not the article known as

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This was prepared for the use of his patients of the Sarsaparilla root are now removed every vestige of bee wing acid Extract is considered inferior and rejected then every particle fine oil must be secured to a pure and concentrated form and thus is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is in fact the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear complaints on every side in its favor by men women and children We hold it long wonders in the cure of

CONSUMPTION DYSPEPSIA and LIVER COMPLAINT and in THE CHRONIC SCROFULOUS FILES ULCERS ERUPTIONS OF THE SKIN PIMPLES BLOTCHES and all those that arising from

IMPURITY OF THE BLOOD

It possesses such marvellous efficacy in all cases taking and indeed the first necessity of the Stomach from to acquire cultivate a skin must Blood to the hand pulsation of the heart cold feet and hands cold chills and hot flashes over the body It has a tendency to *Colds and Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the throat and every other part

But in both regards it is once more manifest a well tried and tested friend in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Labor Pains or Hard Labor Suppressed Suppressed Menses Irregularity* of the menstruous periods and the like and is as effectual in curing all the forms of *Anomalous Disease*

By regulating obstructed and regulating the general system It gives tone and strength to the whole body and the cures are of a kind

Nervous diseases and debility,

and thus prevents a great variety of other kindred ills *Spinal irritation Neuralgia St Vitus Dance Sleeping Epileptic Fits Convulsions* &c

It is one that bold excites the liver to healthy action times the stomach and gives good digestion, relieves the bowels of torpor and constipation relieves the distressing pain from the skin equalizes the circulation the hand first time gentle warmth equal all over the body and the lessens the perspirable relations all sensations of lightness rises all obstructions and transmits the entire nervous system in health this

The medicine too pre-eminently need!

But enough indeed regards all Dr Townsend's interest in the Old Dr's Sarsaparilla

COMPARED WITH THE OLD DR'S

necessarily a GRANDFATHER the one is EQUALLY PALE of DEATH

NEVER SPOILS.

while the other Dr's *souring fermenting* and *blowing the bottles* containing it so long gets diseased acid light kept long and damaging other goods Must not it be horrible compound be poisonous to the system?—*What! put and into a system already diseased with evil* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence, heartburn palpitation of the heart liver complaint diarrhea dysentery colic and eruption of the blood? What is scrofula but an acid humor? What is dropsy? What is dropsy and the humors which bring on eruptions of the Skin Scald Head Salt Rheum Erysipelas White Swellings Fever Sores and all internal and external? It is nothing under heaven but an acid substance which sours and in spoils all the fluids of the body more or less What causes Rheumatism but a sour acid fluid which insinuates itself between the joints and of course irritating and inflaming the delicate tissues upon which it acts? Sick nervous diseases of impurity of the blood, of deranged circulations and nearly all the ailments which afflict humanity

Now is it not horrible to make and sell and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S P TOWNSEND,

and yet he would if his have it understood that Old Dr Jacob Townsend's *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's article! and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend's FERMENTING COMPOUND

We wish it understood because it is the *absolute truth* that S P Townsend's article and Old Dr Jacob Townsend's Sarsaparilla are *heaven wide apart and infinitely dissimilar* that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor and never was is no chemist no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health

But what else should be expected from one who knows nothing comparatively of medicine or disease? it requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine be designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS should know well the medical properties of plants, the most manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which effect the human system, and how to adapt remedies to those diseases

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom to restore health and bloom and vigor to the crushed and broken and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Save.

SAVE YOUR DOCTOR'S BILLS

Thousands of dollars of doctor's bills have been saved by the use of this medicine, and there is little doubt that if it were more generally resorted to than it is, sickness would in most cases be prevented

NEW YORK April 17, 1849

This is to certify that I have used Wright's Indian Vegetable Pills in my family for more than five years and have found much benefit from them the best in the world During this period I have had no occasion for a physician though my daughter and wife have been very low several times WILSON LADDWILL

NERVOUS DEBILITY—LOSS OF ENERGY

Weakness and nervous debility are speedily and permanently restored the declining powers of the human body This may at first be doubted but no fact is better established Those who use it or desire a Sarsaparilla for this purpose overlook in doing so a medicine far cheaper and more effectual

Ulster Co Ulsterville N Y, Oct 5 1848

Dr Wm Wright—Sir—For the last three or four years I had been gradually sinking down and for the last two years so weak that I was unable to perform my usual labor I was advised to try your Indian Vegetable Pills and I am ready to state that by the use of three or four boxes I began to feel like myself again, and am now thoroughly cured

For my own experience I can recommend your Pills to the afflicted with confidence that they will be found a medicine of great efficacy and value Yours truly,

JOHN CLAVELAND
